

Omiš – Ilinac

Diff: 5b+ (5a obl.)

First Ascend: Tanja Kuster & Matthias Pilz, 28.08.2017

Protection: ++++/++++, 10mm Stainless Steel Fixe Bolts and Slings

Gear: 9 Quickdraws, 50m Rope, 4 Slings

Length: 130m

Access: 20 Min.

Beautiful and easy climb on excellent wart-rock. The route is well protected and one of the very less easy multipitch climbs with bolts. You can abseil from 1st and 3rd belay and escape on foot from the 2nd which touches the Trail. A nice climb for multipitch-beginners and as an add-on to other Ilinac-climbs!

Ascend: From the Hidroelektrana in Zakučac (parking) follow the wide path to the holy shrine of Leopolda Mandica (2 min). Here the well signed „Education Trail“ starts. Follow it until it separates into it's ascend and descend section (signpost) between „Station 5“ and “Station 6“ (Therefore, see the map which you can find on every information sign). From here you can see the first pitch (tower) just above the cross-way. Follow the cairns straight upwards for 5 minutes and reach the base of the tower. Red sling in 2 m height and bolt just beside the first big wart.

Descend: The Route ends directly at the „Education Trail“ which you follow back.
